LinkedIn | GitHub | Portfolio

Software Developer with hands-on experience in Java, Spring Boot, React.js, GraphQL, Microservices, and REST APIs through industry internships. Skilled in developing scalable backend services, integrating frontend applications, and building cloud-ready solutions. Familiar with AI-driven solutions and leveraging Generative AI to accelerate software development and productivity. Strong foundation in Data Structures, OOP, and Agile software development.

TECHNICAL SKILLS

- **Languages**: Java, JavaScript, HTML, CSS
- **Frameworks and Libraries**: React.js, Node.js, Express.js, Spring Boot
- **Tools & Databases**: Jira, Git, Maven, Docker, MongoDB, MySQL
- **Architecture & Messaging**: Microservices, Kafka, REST APIs, GraphQL
- **Core Concepts**: Infrastructure as Code, OOP, DSA, Cloud and DevOps

EXPERIENCE

- **Volvo Group – Software Development Intern**
  Software Development Intern | On-site | April 2026 – Present
  - **Backend Exposure:** Gained hands-on exposure to **Java, Spring Boot, GraphQL, and Microservices** while working closely with a **10+ member engineering team.**
  - **Feature Integration & Debugging:** Collaborated with **2+ cross-functional teams** on React-backend integration, API workflows, debugging, and end-to-end feature understanding.
  - **Agile Collaboration:** Participated in **10+ sprint activities**, including planning, code reviews, debugging, and technical discussions within an Agile environment.

- **Hulk Hire Tech – Java Development Trainee**
  Java Development Intern | Remote | Feb 2026 – April 2026
  - **Payment System Development:** Developed a **Spring Boot microservices-based payment system**, enabling secure communication across multiple services and designing **10+ REST APIs** for checkout sessions, hosted payments, and transaction processing.
  - **Payment Gateway Integration & Testing**: Integrated the Stripe Payment Gateway with webhook-driven real-time payment updates, enabling **100% automated payment status synchronization** across **3+ microservices** and validating **20+ payment** scenarios using Postman.

EDUCATION

Bachelor of Computer Science Engineering **(2021 – 2025)**
A G M Rural College of Engineering and Technology, Varur, Hubli | CGPA: 8.3

Pre – University College (PUC) **(2020 – 2021)**
Jnana Pragati Pu College, Chikodi (Karnataka) | Percentage: 92.5%

Secondary School Leaving Certificate (SSLC) **(2018 – 2019)**
A S Patil High School, Nipani (Karnataka) | Percentage: 94.24%

PROJECTS

- **FreelancerHub – Full-Stack Freelancer Marketplace [GitHub]:** Developed a full-stack marketplace with **~30 REST API endpoints**, implementing JWT authentication, **3 role-based access levels**, PostgreSQL data relationships, and an automated proposal workflow that accepts one proposal, rejects competing proposals, and updates project status. **Tech: Java 21, Spring Boot 3, Spring Security, JWT, PostgreSQL, React 18, Tailwind CSS, Maven, Swagger, Git. [Demo]**

- **MERN Restaurant Reservation App [GitHub]:** Engineered a full-stack restaurant reservation system enabling users to book tables online with real-time confirmation and managing **50+** restaurant records and table inventories. Implemented secure data storage and RESTful API communication and deployed the frontend on **Vercel** and backend services on **Render** using a scalable cloud-based architecture for high availability. **Tech: React.js, HTML5, CSS3, JavaScript, Node.js, Express.js, MongoDB, Mongoose, REST APIs, Vercel, Render, Git, Postman. [Demo]**

CERTIFICATIONS

- Java Developer Trainee – Hulk Hire Tech, Hyderabad [Certificate]
- Rooman Technologies – Application Development – Web and Mobile (2024). [Certificate]
- Deloitte – Technology Job Simulation (2025) [Certificate]
